PROFESSIONAL SUMMARY

B.Tech student and Software Developer with hands-on internship experience building database-driven, full-stack software and web applications. Proficient in PHP, CodeIgniter (MVC), JavaScript, MySQL, Node.js, Express.js, and MongoDB, with strengths in backend development, REST APIs, authentication, and MySQL database optimization. Skilled in building responsive interfaces with HTML5, CSS3, and Bootstrap, and integrating AI and data visualization tools. Strong foundation in OOP, DBMS, and Data Structures & Algorithms, with practical experience in debugging, validation, testing, and team-based delivery using Git and GitHub. Seeking a Software Developer / Full-Stack Developer role or internship.

TECHNICAL SKILLS

Programming Languages: C, C++, JavaScript, PHP, SQL
Frontend Development: HTML5, CSS3, Bootstrap, AJAX, Responsive Web Design
Backend Development: PHP, CodeIgniter (MVC Framework), Node.js, Express.js, REST APIs, Authentication
Databases: MySQL, MongoDB, SQL, Database Design & Optimization
Core Concepts: Object-Oriented Programming (OOP), DBMS, Data Structures & Algorithms
Software Development: Full-Stack Web Development, Backend Development, Testing, Deployment, Team Collaboration
Tools: Git, GitHub (Version Control), VS Code, Postman, XAMPP, phpMyAdmin

WORK EXPERIENCE

Software Engineering Intern
June 2026 – August 2026

Sorreal Systems Private Limited, New Delhi

- Developed a full-stack Multi-Level Smart Parking System using PHP, CodeIgniter (MVC), JavaScript, MySQL, HTML, CSS, and Bootstrap, delivering 10+ functional modules.
- Automated vehicle entry and exit management and successfully parked 400+ vehicles during testing.
- Built a real-time parking slot tracking module managing 50+ parking slots to improve space utilization.
- Designed 4+ MySQL-backed modules for vehicle records, parking history, parking operations, and revenue management.
- Improved software reliability through input validation, database optimization, and backend logic, resolving 20+ bugs/issues during testing.
- Collaborated with the team across development, testing, debugging, and deployment, contributing to multiple software features.

PROJECTS

Multi-Level Smart Parking System
GitHub Link

PHP, CodeIgniter, JavaScript, MySQL, AI, Data Visualization

- Built a full-stack parking management software on the CodeIgniter (PHP MVC) framework with role-based Admin and Staff modules.
- Automated vehicle entry and exit with receipt generation and implemented real-time slot tracking.
- Developed a revenue analytics dashboard.
- Optimized MySQL database operations and designed a responsive Bootstrap interface.

Hostel Management System

PHP, MySQL, JavaScript, HTML, CSS, Bootstrap

- Developed a database-driven Hostel Management System using PHP and MySQL to manage student records and hostel room allocation.
- Implemented student registration, record management, and room allocation functionalities to simplify hostel administration.
- Designed and integrated a MySQL database for efficient data storage, retrieval, and management.
- Built a responsive and user-friendly interface using HTML, CSS, JavaScript, and Bootstrap for smooth navigation and better user experience.

EDUCATION

Bachelor of Technology (B.Tech)
2024 – 2028 (Expected)

Dr. A.P.J. Abdul Kalam Technical University (AKTU), Lucknow, Uttar Pradesh | CGPA: 7.82

Intermediate (12th)
2022

Shri Prakash Intermediate College, Varanasi, Uttar Pradesh (UP Board) | 69.6%

High School (10th)
2020

Shri Prakash Intermediate College, Varanasi, Uttar Pradesh (UP Board) | 83.6%

ACHIEVEMENTS & LEADERSHIP

- **Hackathon:** Selected among 47 teams out of 294 for the presentation round of Craftora's CodeBlitz 2.0 Hackathon (2026).
- **Internship Selection:** Selected for the "Techno-10: Software Internship Programme" at Sorreal Systems Pvt. Ltd., Varanasi Campus (2026).
